Air Plan Approval; VT; Prevention of Significant Deterioration, Nonattainment and Minor New Source Review

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve three State Implementation Plan (SIP) revisions submitted by the State of Vermont. These revisions primarily amend several aspects of Vermont's new source review permitting regulations. The permitting revisions are part of Vermont's major and minor stationary source preconstruction permitting programs, and are intended to align Vermont's regulations with the federal new source review regulations. The revisions also contain amendments to other Clean Air Act (CAA) requirements, including updating the State's ambient air quality standards and certain emissions limits for sources of nitrogen oxides and sulfur dioxide. This action is being taken in accordance with the Clean Air Act.

SUPPLEMENTARY INFORMATION: In the Final Rules Section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.
